§ 361.53 - Comparable services and benefits.

(a) *Determination of availability.* The State plan must assure that prior to providing any vocational rehabilitation services, except those services listed in paragraph (b) of this section, to an eligible individual, or to members of the individual's family, the State unit must determine whether comparable services and benefits, as defined in § 361.5(b)(10), exist under any other program and whether those services and benefits are available to the individual unless such a determination would interrupt or delay -

- (1) The progress of the individual toward achieving the employment outcome identified in the individualized plan for employment;
- (2) An immediate job placement; or
- (3) The provision of vocational rehabilitation services to any individual who is determined to be at extreme medical risk, based on medical evidence provided by an appropriate qualified medical professional.

(b) *Exempt services.* The following vocational rehabilitation services described in § 361.48(a) are exempt from a determination of the availability of comparable services and benefits under paragraph (a) of this section:

- (1) Assessment for determining eligibility and vocational rehabilitation needs.
- (2) Counseling and guidance, including information and support services to assist an individual in exercising informed choice.
- (3) Referral and other services to secure needed services from other agencies, including other components of the statewide workforce investment system, if those services are not available under this part.
- (4) Job-related services, including job search and placement assistance, job retention services, follow-up services, and follow-along services.
- (5) Rehabilitation technology, including telecommunications, sensory, and other technological aids and devices.

(6) Post-employment services consisting of the services listed under paragraphs (b)(1) through (5) of this section.

(c) *Provision of services.* (1) If comparable services or benefits exist under any other program and are available to the individual at the time needed to ensure the progress of the individual toward achieving the employment outcome in the individual's IPE, the designated State unit must use those comparable services or benefits to meet, in whole or part, the costs of the vocational rehabilitation services.

(2) If comparable services or benefits exist under any other program, but are not available to the individual at the time needed to ensure the progress of the individual toward achieving the employment outcome in the individual's IPE, the designated State unit must provide vocational rehabilitation services until those comparable services and benefits become available.

(d) *Interagency coordination.* (1) The State plan must assure that the Governor, in consultation with the entity in the State responsible for the vocational rehabilitation program and other appropriate agencies, will ensure that an interagency agreement or other mechanism for interagency coordination takes effect between the designated State vocational rehabilitation unit and any appropriate public entity, including the State entity responsible for administering the State Medicaid program, a public institution of higher education, and a component of the statewide workforce investment system, to ensure the provision of vocational rehabilitation services (other than those services listed in paragraph (b) of this section) that are included in the IPE, including the provision of those vocational rehabilitation services during the pendency of any interagency dispute in accordance with the provisions of paragraph (d)(3)(iii) of this section.

(2) The Governor may meet the requirements of paragraph (d)(1) of this section through -

(i) A State statute or regulation;

(ii) A signed agreement between the respective officials of the public entities that clearly identifies the responsibilities of each public entity for the provision of the services; or

(iii) Another appropriate mechanism as determined by the designated State vocational rehabilitation unit.

(3) The interagency agreement or other mechanism for interagency coordination must include the following:

(iii) *Interagency disputes.* Information specifying procedures for resolving interagency disputes under the interagency agreement or other mechanism for interagency coordination, including procedures under which the designated State unit may initiate proceedings to secure reimbursement from other public entities or otherwise implement the provisions of the agreement or mechanism.

(iv) *Procedures for coordination of services.* Information specifying policies and procedures for public entities to determine and identify interagency coordination responsibilities of each public entity to promote the coordination and timely delivery of vocational rehabilitation services other than those listed in paragraph (b) of this section.

(e) *Responsibilities under other law.* (1) If a public entity (other than the designated State unit) is obligated under Federal law (such as the Americans with Disabilities Act, section 504 of the Act, or section 188 of the Workforce Investment Act) or State law, or assigned responsibility under State policy or an interagency agreement established under this section, to provide or pay for any services considered to be vocational rehabilitation services (e.g., interpreter services under § 361.48(j)), other than those services listed in paragraph (b) of this section, the public entity must fulfill that obligation or responsibility through -

(i) The terms of the interagency agreement or other requirements of this section;
